SKILLS

- Front-End: HTML5, CSS3, JavaScript, Bootstrap, React.js
- Database: MySQL, MongoDB, Neo4j
- Programming: Python, C++, Java, VB.NET
- Data Analytics: Data Visualization, Data Transformation
- Tools: Power BI, WordPress, Git, GitHub, VS Code, MS 365
- Practices: Interactive Dashboards, Responsive Web Design, UI/UX Awareness, RESTful APIs

LANGUAGES

- English
- French
- Malayalam
- Hindi

CAREER OBJECTIVE

Aspiring Software Engineer and Data Analyst pursuing Integrated MCA, skilled in SQL, Python, and web development. Passionate about applying technical skills to real-world projects and building data-driven solutions.

EDUCATION

Integrated Master in Computer Applications (IMCA)
Saintgits College of Engineering (Autonomous), Kottayam — 2021- PRESENT
Current CGPA: 7.69/10 up to 9th semester

Higher Secondary (Science)
Good Shepherd Public School & Junior College, Thengana, Kottayam — 2019 – 2021
Percentage: 88.4%

Secondary School — 2018 – 2019
The Asian School, Bahrain
Percentage: 88.2%

INTERNSHIP

Applications Engineer Intern — JAN 2026 - PRESENT
Qubiqon Consulting India Pvt Ltd – Kochi, Kerala

- Designed and implemented a real-time recommendation system using Neo4j for graph-based data modeling and React for an interactive user interface.

Power BI Intern
Nest Digital Academy – Kochi, Kerala — AUG 2025 – OCT 2025

- Designed and developed interactive Power BI dashboards to visualize key business insights.
- Utilized Power Query and DAX for data transformation and analysis to support data-driven decisions.

Front-End Development Intern (Angular)
Nest Digital Academy – Kochi, Kerala — MAY 2025 – JUN 2025

- Developed responsive front-end applications using Angular and Bootstrap for enhanced UX.
- Optimized UI performance to improve speed, interactivity, and user engagement.

Python AI/ML Intern — JUN 2024 – JUL 2024
Srishti Innovative – Thiruvananthapuram, Kerala

- Developed and trained machine learning models using Python, TensorFlow, and Scikit-learn.
- Performed data preprocessing and feature engineering to improve model accuracy and deliver data-driven insights.

Web Development Intern — JUL 2023 – AUG 2023
Brainovision Solutions India Pvt Ltd – Hyderabad, Telangana

- Developed responsive, user-friendly websites using HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility and delivered visually engaging, client-focused web solutions.

POSITIONS HELD

- Vice-Chair | IEEE Computer Society Student Branch Chapter | Saintgits College of Engineering
- Head | Venue, Inauguration & Valedictory | SAMYUKTHA 9.0 | Saintgits College of Engineering
- Head | Transportation Committee | SRISHTI 2025 | Saintgits College of Engineering
- Secretary | SMART - MCA Association | Saintgits College of Engineering
- Chief | Transportation Committee | SRISHTI 2024 | Saintgits College of Engineering
- Head | Transportation Committee | SRISHTI 2023 | Saintgits College of Engineering

PROJECTS

PlaceMate - Campus Placement Analysis and Prediction System DEC 2025 – PRESENT

Developing a React.js and Flask platform using Scikit-learn to predict placement outcomes and provide AI-driven career guidance through historical trend analysis.

Rubik's Cube Solver AUG 2025 – OCT 2025

Website developed using React.js to solve a classic 3x3 Rubik's cube from any scrambled position with minimum steps using various Python libraries like Kociemba, OpenCV and NumPy.

Certificate Management System JAN 2024 – MAR 2024

Google Firebase + Android Studio - based application to manage student and faculty certifications within the colleges.

POSTER PRESENTATION

Bias Mitigation in Generative AI JAN 2025

Presented a Poster at the Third International Conference on FOSS Approaches Towards Computational Intelligence and Language Technology organized by ICFOSS, in association with BHASHINI, co-sponsored by Kerala Startup Mission.

CERTIFICATIONS

- Cloud Computing & AWS Fundamentals | Udemy — AUG 2025
- Introduction to OpenAI GPT Models | Infosys Springboard — AUG 2024
- PHP for Beginners 2024: Complete PHP MySQL PDO | Udemy — FEB 2024
- Android App using Kotlin | IIT Bombay — JAN 2024
- Web Application Technologies & Django | Coursera — JAN 2024
- Linux Security | Udemy — JUL 2023
- CS105: Introduction to Python | Saylor Academy — JUL 2023
- Python 101 for Data Science | IBM — FEB 2023
- Data Structures & Algorithms in C for Beginners | Udemy — SEP 2022

WORKSHOPS & ACTIVITIES

- Modern DevOps: CI/CD, Automation & Containerization | Saintgits College of Engineering — AUG 2025
- Cybersecurity and Awareness Session by IEEE Computer Society | Saintgits College of Engineering — AUG 2025
- IoT Insights: Building Smart Solutions with ESP8266 & Databases by Nest Digital Academy | Saintgits College of Engineering — FEB 2025
- Computer Graphics Animation - Creating Character in Blender | Saintgits College of Engineering — MAR 2024
- Awareness Session Programme on FOSS TechVenture conducted by ICFOSS covering the domains of IOT,Drones and Cybersecurity | Saintgits College of Engineering — MAR 2024
- "Unlocking Digital Marketing Success" by Citrus Informatics India Pvt Ltd | Saintgits College of Engineering — FEB 2024
- AR/VR Workshop in Unity by RigLabs | St Thomas Institute for Science & Technology, Kazhakoottam — JAN 2024
- Expert Talk on Technical Writing by Mr Abeesh Thomas | Saintgits College of Engineering — NOV 2023
- Five Days Web Development workshop on Django by FOSS Cell | Saintgits College of Engineering — AUG 2023
